

**[DEMO] HUAWEI NOVA 7 SE 5G**

**\$528.00**

Huawei Nova 7 SE 5G Youth has been launched as the latest smartphone offering from the company. The phone is powered by the MediaTek Dimensity 800U SoC and packs a 4,000mAh battery. It is a slightly watered-down model of the Huawei Nova 7 SE 5G that was launched in April this year. Apart from the processor, there is little else that is different between the two smartphones. Other phones in this series include Huawei Nova 7 5G and Huawei Nova 7 5G Pro, both of which are comparatively premium models.
